### RIVER GANGA – A LIVING ENTITY

The Ganges is one of the major rivers of the Indian subcontinent which flows from the east through the Gangetic plain of northern India into Bangladesh. The river rises around 2510 km in the western Himalayas in the Uttarakhand state of India and drains into the Sunderbans delta in the Bay of Bengal.

The honorable High court of Uttarakhand has given 'Living Entity' status to river Ganga. It means that now onwards Ganga has to be treated as a 'living person' with all corresponding rights and duties of a living person in order to conserve Ganga river system. In spite of initiatives by various governmental and non-governmental agencies, Ganga and its tributaries are still abused by the people. The river is polluted by domestic, agricultural and industrial effluents. This river system is a lifeline of northern India. That is why, its health has to be restored for the benefit of people.

Answer the following questions:

Q1. Which river has been discussed in the above paragraph?

- (a) River Yamuna
- (b) River Ganga
- (c) River Brahmaputra
- (d) None of the above

Q2. "Living Entity" means

- (a) Living person with all corresponding rights and duties.
- (b) Living person with no corresponding rights and duties.
- (c) Unknown person
- (d) None of the above

Q3. Reasons for river pollution are ..... , ..... and .....

Q4. The given river is considered as lifeline of

- (a) India
- (b) Northern India
- (c) Southern India
- (d) Eastern India

Q5. The given river flows from the ..... Through plains of Northern India into .....

- (a) East, Bangladesh
- (b) West, West Bengal
- (c) North, Jammu and Kashmir
- (d) South, Chennai

Project Work :

- \* Aesthetically represent “ The Ganga River System” on an outline map of India.
- \* Create a model/ppt/collage/Poster to show the importance of River Ganga and what steps should be taken to restore the health of River Ganga- A living Entity.
- \* Why has River Ganga been called the lifeline of the people? (120 Words)

## Maths

Calculate the distance between your place and Haridwar in kilometers after that calculate the distance between Haridwar bus stand to Ganga river. Calculate the total distance and find out the modes of travelling for example

Airways, waterways, and roadways. Estimate the total cost for the entire distance for all means of travelling and we ate there histogram and pie narrate with which means of travelling the cost of travelling was minimum and highest. According to you which ways of travelling would you prefer to visit Haridwar city and Ganga river. Also mention the states you come across when you travel from your place to Ganga river. Plot this distance in a political map of India also.

Also give a write up, or a song or poem in any language to make this journey Bright and rememberable.

## **SCIENCE**

\* Prepare a ppt for types of microorganisms found in water of river Ganga and suggest ways to keep it clean.

\* Identify the name of aquatic animal in river Ganga that is termed as endangered.

In which Indian State it is most recognized.

\* How many types of amphibian and fish species are found in river Ganga.

## English

1) PROJECT THEME:Ganga,a living entity

Write a self composed poem or an article or a report on the topic,"Ganga river and Indian mythology"

OR

"Ganga,the sacred river"

OR

"Ganga : Today, yesterday and tomorrow"
